

Q: Can I create a Team fundraising campaign on Benjo?

Last Modified on 01/05/2018 4:29 pm AEST

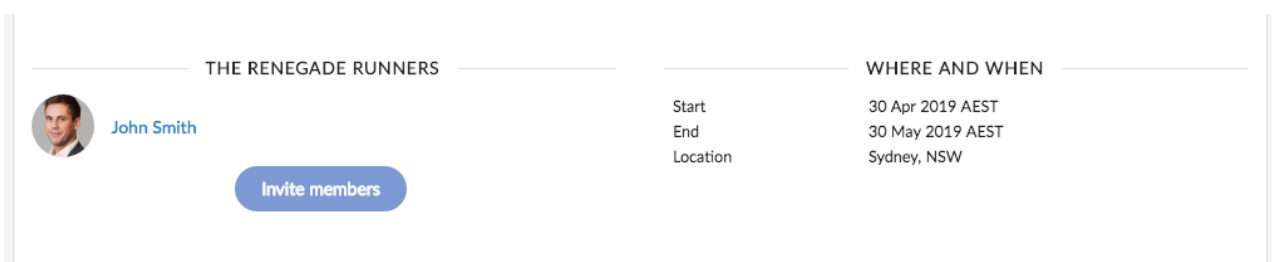

A: Absolutely! But your benefiting Charity does need to have set up what's called a Peer to Peer Campaign first, meaning they have created a kind of parent campaign from which you create your own personalised - or team - version of the same campaign.

If you see the big red **Fundraise** button on a campaign page, you're able to create your own individual or team campaign from there:

The screenshot shows a fundraising campaign interface. At the top, there is a banner with colorful hands. To the right, the goal is set at \$4,000.00, with the text "AIMING TO RAISE" below it. Below the goal, there are two red buttons: "Donate" and "Fundraise". The "Fundraise" button is expanded, showing two options: "Fundraise as individual" and "Fundraise as team". Below the buttons, there is a section titled "PROCEEDS GOING TO" with the logo for "GoodCause" and the text "A Good Cause".

Once you've created your team event and hit **Save**, you'll see an option to **Invite members**:

The screenshot shows a team event page for "THE RENEGADE RUNNERS". On the left, there is a profile picture of John Smith and a blue button labeled "Invite members". On the right, there is a section titled "WHERE AND WHEN" with the following details:

Start	30 Apr 2019 AEST
End	30 May 2019 AEST
Location	Sydney, NSW

Enter the email addresses of those you wish to join your team, and **Invite** them...they can join by clicking the email link they receive and adding the password provided to them...easy!
