

Find a charitable cause

Last Modified on 30/01/2019 12:21 pm AEDT

If you're seeking a particular charity or cause who have a profile on Benoyo, simply enter their name in the search bar. If they're not there, you can find other great causes to give to using the **Browse by area** menu or home page option, or **Suggest a cause** from your named menu to ask us to add a specific Charity or Area of Interest. We'll reach out and invite your chosen Charity or Cause to join Benoyo...it's always free for them to join and use Benoyo, and Benoyo don't take a cent of your donation in costs.

Once you've found a cause you want to support, clicking on **Follow** from the small view or the campaign view adds them to your profile as a new charity you're connected to. This means that you'll see their campaigns on your home page and be notified any time they have something new for you to do.

Want to support another Cause?

Interested in a Cause or an area of interest that is yet to be represented on Benoyo? Use our **Suggest a cause** option, also under Causes on your drop down menu.

We'll reach out to them and invite them to get onboard. We can't promise they'll join our platform, but we'll certainly ask them.

This video explains how to request a charity that's not yet on Benoyo:
