Closing your Campaign

Fundraising Campaign finished? All expected fundraising collected?

Make sure you **Close** your Campaign. Apart from good housekeeping, and stopping your page getting clogged up with Campaigns that are now passed, Closing your Campaign is your opportunity to write a closing statement, telling everyone who supported it how the Campaign went, and what they helped to achieve....an Impact Summary.

It's easy:

Open the campaign page and click on the **Admin** button and then click **Close**.

You'll then be asked for a Closing Statement...this is the message you will be sending to your donors. What was achieved? What Impact and outcomes resulted from everyone's contribution?

When you hit **Save** on your closing message, it is automatically emailed out to all your Benajo supporters. Cool hey? And if you've uploaded photos to the Campaign, it's a good way to share them with your supporters, through the Campaign page.

Saying thanks has never been so quick and easy.
